

Our Products in Brewing Industry

Adding value to the product and the process

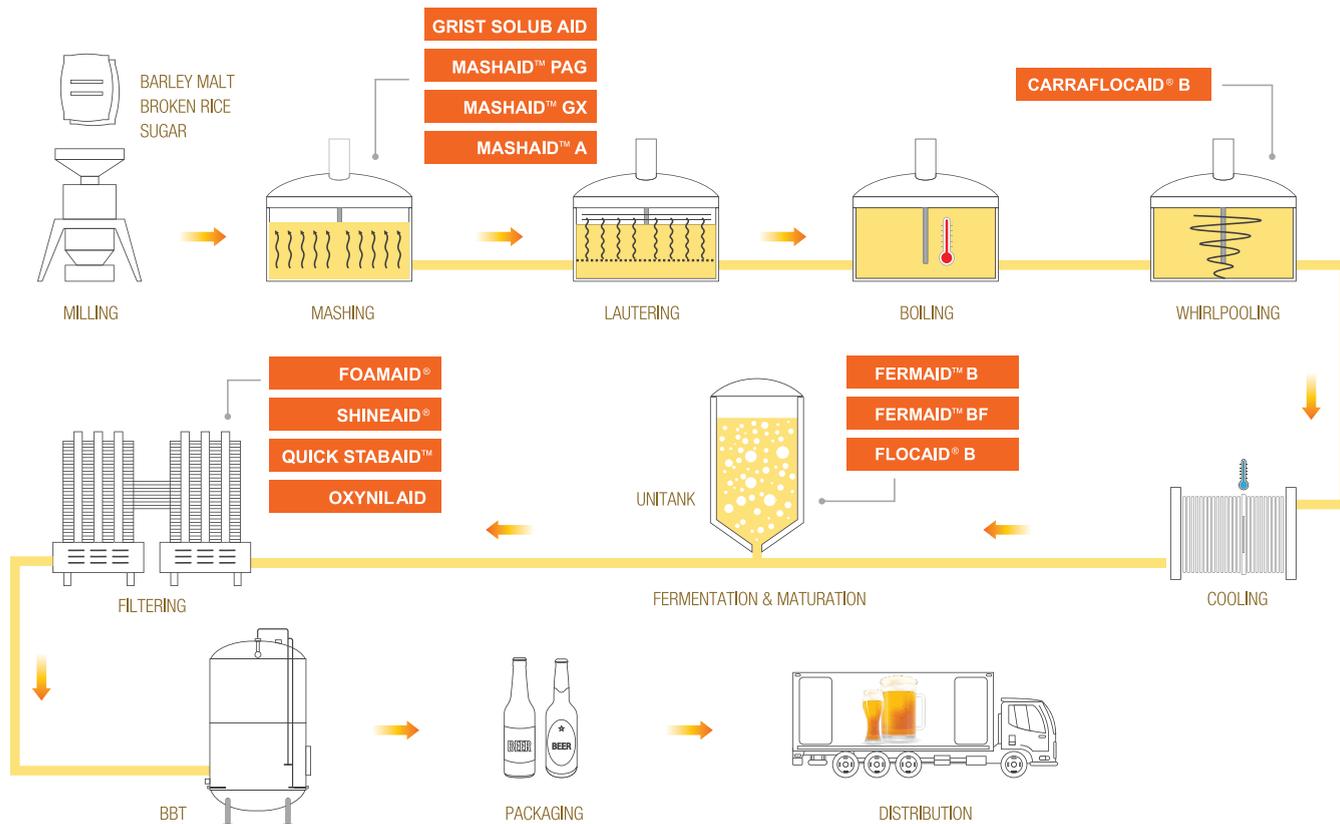

Who We Are

PrARAS Biosciences Pvt. Ltd. (PBPL), incorporated in 2007 is engaged in the manufacture of specialty biochemical for diverse industries like breweries, distilleries and food processing. We specialize in providing industrial Biochemical based solutions for product/ process improvement. Our USP is measurability, cost savings, import substitution and environment friendly.

We have a FSSAI Licensed manufacturing facility in Bengaluru, India with ISO 9001:2015 and ISO 22000:2005 certification.

Our Products in Brewing Process

Our Products

PrARAS offers a comprehensive range of natural products which adds value to the entire brewing process. Our wide variety of biochemical, enzymes and cultures improves yields and extraction efficiency. The range of kettle and isinglass finings gives excellent clarification and our stabilizing agents extend the foam life and beer colloidal stability.

We are one of the leading manufacturers of brewing biochemicals in India with an overall market share of 24%. We serve leading customers like UB- Heineken India and Carlsberg India. Customers in Nepal, Bhutan and Myanmar also use our products to add value to their brewing process.

Product Range

Products	Nature of the product	Function*
Antiox	KMS and Sodium Erythorbate	Prevents oxidation & improves shelf life.
Attenaid	Fungal Alpha Amylase	Aids in Attenuation of the wort.
Brewstabaid PSEP	Proline Protease	Prevents the complex formation between haze active proteins and polyphenols. Aids in gluten free beer.
CarraflocAid®	Kappa Carrageenan	Protein flocculation.
FermAid™ B	Essential aminoacids & nutrients	Free Amino Nitrogen correction & yeast food.
FermAid™ BF	Silicon Based	Antifoam.
FlocAid® S	Isinglass finings	Yeast flocculation.
FoamAid®	PGA based foaming agent	Improves foam stability.
GristSolubAid	High temp. Alpha Amylase	To solubilise the grist.
MashAid™ A	Fungal Alpha Amylase	Reduces saccharification time.
MashAid™ GX	Beta Glucanase	Avoid choking and reduce lautering time.
MashAid™ PAG	Enzyme Cocktail	To improve mashing efficiency.
OxynilAid	Sodium Erythorbate	Prevents oxidation & improves shelf life.
QuickStabAid™ A	Silica hydrogel	Improves the clarity & shelf life.
ShineAid®	Papain	Chillproofing.

* please refer to the product data sheets for more details.
